

David McNeil, Railroads in Terrace Park

March 2002

By Carol C. Cole

CM & L Over Bridge

By popular demand David McNeil is coming again to tell us more about Traction Lines in Terrace Park and to show us some pictures as well. If you missed his February presentation this is your chance to learn something about the Swing and Kroger Lines, both coming through Terrace Park along with the railroad. All these rail lines were an important part of life in Terrace Park in an earlier day. For more information about the February meeting please read the article in the February Village Views.

Because of the enthusiasm shown about where these Traction Lines went we are inviting anyone interested to take a ride/walk outing with Stan Brown to look at what can still be seen of where these lines went. If you are interested please call Carol C. Cole at 831-6771 and we will set up tours as appropriate.

Here again we print a listing of new members of the Terrace Park Historical Society since the February issue of Village Views.
